PROFESSIONAL SUMMARY

Enthusiastic Data Science graduate with a strong foundation in Python, Machine Learning, SQL, and Artificial Intelligence. Hands-on experience through academic projects and an AI internship involving data preprocessing, model evaluation, backend development, and automation. Passionate about solving real-world problems using data-driven solutions and eager to contribute to AI and Data Science projects while continuously learning new technologies.

TECHNICAL SKILLS

Programming: Python, SQL, Java (Basics)
Data Science: Machine Learning, Data Analysis, Data Preprocessing, Feature Engineering, Model Evaluation
Libraries: Pandas, NumPy, Scikit-learn
AI: Generative AI Fundamentals, Prompt Engineering, LLM Basics
Frameworks: Django, Flask, REST APIs
Databases: MySQL, SQLite
Tools: Git, GitHub, Jupyter Notebook, VS Code
Concepts: Data Structures, OOP, SDLC, Problem Solving, Statistics

INTERNSHIP

LLM Intern Feb 2026 – May 2026
Ethara AI

- Automated AI evaluation workflows using Python.
- Performed data preprocessing, validation, and quality assessment of LLM outputs.
- Assisted in testing AI responses and improving workflow reliability.
- Collaborated with developers using Git in an Agile environment.

ACADEMIC PROJECTS

Campus Complaint Resolution System Python | Django | MySQL

- Developed a web application for complaint registration and tracking.
- Built secure backend modules and designed relational database architecture.

Cyber Hacking Breach Prediction Python | Flask | Scikit-learn

- Developed a machine learning model for cyber threat prediction.
- Performed feature engineering, preprocessing, and model evaluation.
- Achieved 87.6% prediction accuracy.

Finance REST API Python | SQLite

- Built REST APIs supporting CRUD operations with secure input validation.
- Developed modular backend services integrated with SQLite.

EDUCATION

Bachelor of Engineering – Data Science 2022 – 2026
Sri Siddhartha Institute of Technology

CERTIFICATIONS

Full Stack Development – ExcelR
Machine Learning – ExcelR
GenAI-Powered Data Analytics Job Simulation – Forage

ACHIEVEMENTS

Presented an academic project at the National Level Technodea 2026 Project Exhibition.
Strong interest in Data Science, Artificial Intelligence, Machine Learning, and Healthcare AI applications.
